*November's Program: Morgan Young will recount her experiences at AMA Summer Camp this year.*

## President's Message - November, 2017

Hello Jeffco Membership,

Fall is here. I was reminded of that while raking the leaves in my back yard this past weekend. The World Series starts today in California where it is supposed to be 90 degrees plus, and the days keep getting shorter. It is time to start planning for the coming year and finish what we started this past year. Our flying field was closed for repairs and the Board deliberated over next year's events (Auction, Warbirds and Champs Race) and capital projects.

One of the new upcoming local events is a Rocky Mountain Hobby Expo on October 28 and 29. Although

over by the time you read this, I am glad to see activities like these that promote hobbies in general. Our club is assisting the AMA by coordinating the Make 'n Take area for that event. A great way to get young people interested in building models and showing off their skill. How many of you got started building at a young age? I did.

As you may be aware, due to unexpected construction at the Jefferson County Fairgrounds, we have relocated to the Arapahoe County Fairgrounds for our annual Jefco Aeromod'lers RC Auction in 2018.

This is an exciting opportunity to once again show how it's done. With a large floor space, all the necessary tables, chairs, and being able to sell our own food, we expect to have a top notch event.

However, we need your help and support of this event. Soon we will have flyers and a formal announcement of the event and information to send out.

Be sure to attend the November meeting. I want to thank Lora Knowlton for taking on the challenge of assisting with the newsletter while Larry Fagan is on vacation. Thanks!

Pete Thompson, President

### Welcome New Jefco Aeromod'lers R/C Club Members

**For the first time in  
many, many months  
we have no new members  
to report.**

# September 27, 2017 Jefco Aeromod'lers R/C Club Board Meeting Minutes

Meeting was called to order at 7:08 PM by President Peter Thompson.

Peter Thompson(P), Present	Lora Knowlton (Treas), Present	Ron Ratcliffe (BM), Present
Glenn Lee (VP), Present	Steve Rosselot (Safety), Present	Art Wilson (BM), Absent
Larry Fagan (Sec), Present	Kevin Furman(BM), Present	Bud Glass (BM), Present

**President's Comments:** President Thompson addressed the starting station situation. The Board's proposed starting station location diagram was printed in the September newsletter. There was apparently some confusion with the diagram's legend being interpreted as being part of the proposed starting station locations. President Thompson voiced concern that the Board may have incorrectly implemented the Long Range Planning Committee's (LRPC) recommendations. He would like to put this project on hold until he and the Board have time to completely review the LRPC's recommendations. Due to the proposed budget being the main topic at this meeting tonight, President Thompson decided to postpone the review to a future Board meeting when more time can be devoted to this important topic.

- **Proposed Estate Sale of RC Items** - As reported in the September Business meeting minutes, club member Lee Taylor has been approached by an RC Pilot's widow about disposing of his hobby gear. In this instance she has asked Lee to have a silent auction of her husband's equipment and models in the basement of their house. This silent auction was proposed for the same date as the Rocky Mountain Hobby-Expo (October 28/29). President Thompson will discuss this with Lee about options to acquire the items for our club's auction.
- Lora Knowlton pointed out that the Rocky Mountain Hobby-Expo will be held October 28 and 29. This is a new event for our local area. The event coordinator has produced the train show in the past. This event, sponsored by the Hobby Manufacturers Association, will be a combined consumer/trade show covering all categories of the hobby industry. The AMA will have a booth and will be coordinating the Make 'n Take Airplane area. Our Club has been asked to man the AMA booth at the Expo. Larry Fagan mentioned that the flyer for this event will be published in the upcoming October newsletter along with Lora's request for volunteers.
- Lora will write a blurb for the newsletter about the upcoming Wings Over the Rockies Model Aviation Day and Remote Control Airplane Auction.

## Old/Unfinished Business:

- **Name Badges** - Lora showed a demo name badge. She asked the Board's input as to where the badge should be punched. She wants the badge to be easy for members to display on their persons. Lora says she now has the information she needs so that she can

order supplies for the badges. This will also be a line item in the 2018 proposed budget. This new name badge system should be valid starting January 1.

## New Business:

**Treasurer's Report:** Lora Knowlton went over the treasurer's report for 2016 - 2017 as a preamble to presenting the proposed 2017 - 2018 budget. It was noted that Bud Glass mowed both the infield and outfield while he was monitoring runway repairs. This means that we will not have to engage Singing Hills Landscape to maintain the field for the rest of the year, and that the Club will be spared the cost of that maintenance. The board took a considerable amount of time to examine the items to gain an understanding of where we stand and discussed how/when the cost of recent runway repairs would be charged to the budget.

Glenn Lee motioned to accept the financials as presented by Lora including the incumbrance of the runway repair. The motion was seconded by Kevin Furman and passed.

2017-2018 Budget: Lora then presented the proposed budget based on feedback from the board and previous discussions. The proposed budget is divided into two parts: (1) a short "stub" budget which would contain items between October 1 and December 31 of this year and (2) a budget for the 2018 calendar year. This would coincide with the report that will be filed with the IRS to move our fiscal year from Oct - September to the calendar year. The board decided to make this an operating budget only - with no capital budget items included. In this way projects could not be buried in a line item and be passed without member oversight. Items such as the weather station upgrade were removed. Capital project items will be reviewed by the board and presented to the membership at a future date.

For instance, one project proposal might be for the purchase of a piece of equipment to maintain the field while another might be a weather station upgrade. In this way the membership could make a more reasoned decision about the relative merits of the two proposals. It was also brought up that part of the extensive proposal presented by the LRPC contained several capital improvement projects that were presented in phases. This would give the membership an opportunity to see how a given proposal might dovetail with one of the LRPC's proposed phases or not.

The Board spent a considerable amount of time going over each line item to insure that it met the criteria of

# September 27, 2017 Jefco Aeromod'lers R/C Club Board Meeting Minutes (Con't)

## New Business (Con't):

**Treasurer's Report (Con't):** being an operational item and what portion of the expected expense should be in the stub budget, the 2018 budget, or both. Kevin Furman motioned to accept the proposed operating budget with the suggested changes made by the Board. Steve Rosselot seconded the motion which passed unanimously. Lora will email the proposed budget to all Board members before the October general meeting where it will be presented to the membership.

Kevin Furman moved to transfer \$3,500.00 to the Runway Fund due to the successful 2017 auction. Glenn Lee seconded the motion and it passed.

**Tonight's Board Meeting:** Due to the unavailability of The Bistro at Aspen Grove Restaurant for our postponed BOD meeting, Bud Glass invited the entire group to meet and dine at his house. What a sumptuous meal! Bud spent most of the day cooking, and the results were spectacular! President Thompson extended a thank you to Bud which was enthusiastically affirmed by the rest of the Board in attendance.

**Motion to Adjourn:** A motion to adjourn the meeting was made by Kevin Furman. It was seconded by Steve Rosselot. The meeting was adjourned at 8:40 P.M.

Respectfully submitted,  
Larry Fagan, Secretary.

## New Field Signs and a Bit of Fun at the Glass' House

Left:  
By the time you read this, the new Park approved signs pointing to the Aerodrome should be installed.

### Jefco Aeromod'lers Board of Directors

Dinner Meeting 9-27-17

6:00 p.m. @ Bud's House

6352 S. Depon Court, Littleton, CO 80123

#### Starters

Cocktails & Hors D'oeuvres

Shrimp Cocktail, Fancy Olive & Cheese Tray

#### Entrée

Spiral Sliced Ham with Spiced Brown Sugar and Southern Comfort Glaze, Bud's Special Baked Beans, Crispy Cheesy Baked Potatoes with Bacon & Chives

#### Dessert

German Chocolate Cake with Pecan-Caramel and Toasted Coconut Topping

Left and Right, Bud had a bit of fun for the Board meeting. Since we were unable to meet at our usual place due to moving the meeting date, Bud invited the Board to meet at his house. Bud cooked up a fine meal, and put out the evening fare in a most stylish way, complete with fancy menus!

## October 4, 2017 Jefco Aeromod'lers R/C Club Business Meeting Minutes

The meeting was called to order by President Peter Thompson at 7:04 PM at the Alice Terry Elementary School. There were 34 in attendance.

**President's Welcome:** President Pete Thompson thanked Bud Glass for hosting the board meeting at his house last week. Bud provided a wonderful home cooked meal, complete with all the fixin's.

**Program:** Due to a UAS heli crash this afternoon, guest speaker Chris Jackson was unable to attend and give his presentation on his role with his commercial UAS helicopter. Instead, Bud Glass' short video titled "Bud's Custom Hot Rod" was shown. This particular 'hot rod' was his ingenious customization of a spraying device on the back of an ATV that could be used at the field for various projects.

**New Members:** The club welcomed new members in attendance: Mike Mallory, Chris McGill (member Steve McGill's son) and John Wolff.

**Estate Sale:** President Thompson reported that club member Lee Taylor had been approached by a RC pilot's widow about disposing of his hobby gear. She had asked Lee to have a silent auction of her husband's equipment and models in the basement of their house. President Thompson will discuss this with Lee about options to acquire the items for our club's auction rather than a silent auction. He also said that if anyone is interested in coordinating future requests from members, to let him know.

**Secretary's Report:** Bud Glass made a motion to accept the general meeting minutes from September 6, 2017 as published in the October newsletter. The motion was seconded by Ed Scholes. Motion carried.

**Treasurer's Report:** Lora Knowlton gave the new fiscal years budget presentation. Since the club is switching over to a new calendar year fiscal year, she provided two budgets. One part is the for the short "stub" year from now (October 1) to December 31, 2017. The other part is the 12 month calendar year fiscal year from January 1 to December 31, 2018. Lora reviewed the club goals and financial goals. She presented the stub year and 2018 fiscal year's proposed budget, which was based closely on 2017 actuals. New items included some technology enhancements for the auction and name badge supplies for the new name badge system. This budget is truly an operating budget and does not include any capital project budget items. Those items will be presented for membership approval on an as needed basis in the future. There were a few questions, which were answered to everyone's satisfaction. Bud Glass made a motion to accept BOTH the stub and 2018 fiscal year proposed budgets. Steve McGill seconded the motion. Motion carried.

### Committee Reports:

- **Membership Report:** Lora Knowlton reported that members will soon be invoiced for their 2018 membership renewals. Soon new members will be able to join online. The new name badge system will go live on January 1. All members will receive new laminated name badges. The old orange name badges will no longer be issued but can still be worn for vanity. They will no longer be used to validate club membership. Member's AMA card must still be displayed on their person while at the field.
- **Field Maintenance and Runways:** Bud Glass reminded the members that the field will be closed this Monday, October 9 for the remaining runway work. It will reopen on Tuesday, October 10. Bud also displayed the brand new park signs that will be installed at the road entrance to the flying field.
- **Safety:** Steve Rosselot - No Report.
- **Flight Training:** Bud Glass reported there have been 16 new students: 10 active. Six have solo'ed. Good job to those students!
- **Events:**

#### Rocky Mountain Hobby Expo – October 28 & 29, 2017:

Lora Knowlton reported this will be a new event for the local Denver area. The event coordinator has produced the train show in the past. This event, sponsored by the Hobby Manufacturers Association, will be a combined consumer/trade show covering all categories of the hobby industry. The AMA will have a booth and will be coordinating the Make 'n Take Airplane area. Our Club has been asked to staff this area. Lora asked for volunteers and several raised their hands. If you are interested, please contact Lora at [CoCoug@aol.com](mailto:CoCoug@aol.com).

I.C. Carb Day – January 1, 2018: President Thompson reported this is always a fun day and encouraged all to put this event on your calendar. Be the first to fly in 2018! Breakfast burritos and coffee will be provided.

Jefco RC Auction (January 26-27, 2018): Auction Chair Bruce Riley reported the auction will be held on January 26-27. Friday will be a set up and check-in day. Saturday will be the auction day. He was recently informed that the Jefferson County Fairgrounds could not guarantee our usual date due to pending roof replacement construction on all fairground buildings (from hail damage from the storm in May). Due to the uncertainty of the construction schedule, fairgrounds staff could not guarantee our date. Options were reviewed such as other fairgrounds, empty warehouses and old retail buildings. Given the date availability and

## October 4, 2017 Jefco Aeromod'lers R/C Club Business Meeting Minutes (Con't)

Jefco RC Auction (January 26-27, 2018, Con't): space, the 2018 RC Auction will be held at the Arapahoe County Fairgrounds (just off E-470 & Quincy). The venue will work quite well and is in pristine condition. There will be more space to use. The rental fee for the facility, tables, chairs, stage, etc. is far less than what the club has been paying at the Jeffco Fairgrounds so there will be substantial cost savings. Bruce also reported that the auction committee will be recruiting less volunteers for Friday check-in and more for Saturday. Stay tuned for more info.

Pylon Race 2018 (August 25-26, 2018): Pylon Race CD Hank Diepenbroek reported that the club has been awarded the 2018 Pylon Champ Race. While the vote for location was close, Jefco Aeromod'lers did win – and beat out the Muncie, Indiana club. Hosting this race is quite an honor for Jefco. As many as 80 pilots could attend including 4-5 from outside the U.S. Hank will soon be putting together a detailed budget for this event.

- **Programs:** Larry Fagan reported on future programs.

November – Club youth member Morgan Young will report on her experience at this summer's Camp AMA.

December – John Blanyer will give a presentation.

January – To be determined.

- **Update on Shea Homes:** Bruce Ream reported no update.

**Show and Tell:** Pete Thompson showed his sturdy E-flite Ultra Stick. Bill Neyman showed his 40" RC Model World Magazine plane, the Swizzle Stick. Bill also reported that his Spectrum 6 was incapable with the DX6i. Sid Gates showed his scratch built F-94C and hopes to taxi it soon. This project has taken many years to get to this point and is the first of it's kind for him to build. It weighs just under 22 lbs. The turbine engine has 22 lbs of thrust at sea level, so approximately 18 lbs. in Denver. This plane was from the 27<sup>th</sup> Fighter Squadron which he was in for just over 2 years and flew the 555. He will soon be doing taxi testing and checking for leaks, etc. He expects it could fly 150 mph straight and level. Bud Glass showed off his new dedicated night flyer with lots of LED's. It's a Radian that he resurrected and repaired from many crashes.

**Drawing:** Dave Hock coordinated the drawings. Hank Diepenbroek won a \$20 gift card from HobbyTown. Hank also won a Radian XL (in the second number drawing) but quickly donated the plane back to the club. Larry Fagan was the next lucky winner of the Radian XL

**MOTION to ADJOURN:** Steve McGill made a motion to adjourn the meeting. Chris McGill seconded his dad's motion. The motion carried and the meeting was adjourned at 8:00 pm.

Respectfully submitted, Lora Knowlton, Treasurer

(Larry Fagan did not take minutes as he was leaving soon for vacation and would be unavailable to compile the minutes.)

**New members:** above from left to right, Mike Malory, Chris McGill and John Wolf. Welcome!

# October 18, 2017 Jefco Aeromod'lers R/C Club Board Meeting Minutes

Meeting was called to order at                      PM by President Peter Thompson.

Peter Thompson(P), Present	Lora Knowlton (Treas), Present	Ron Ratcliffe (BM), Present
Glenn Lee (VP), Absent	Steve Rosselot (Safety), Present	Art Wilson (BM), Absent
Larry Fagan (Sec), Absent	Kevin Furman(BM), Present	Bud Glass (BM), Present

**President's Comments:** President Thompson commented on how there have been many things accomplished this calendar year in an effort to make the field safer for all to enjoy. He complimented the Board for their efforts.

**Continuing/Unfinished Business:**

- **Pylon Race 2018 – Champ Race** – Hank Diepenbroek attended the Board meeting to present the proposed budget for the 2018 Pylon Champ Race. Date is tentatively scheduled for August 20-26. He went over each item, line by line and answered questions from the board. Motion: Lora Knowlton made a motion to recommend that the proposed budget be presented to the general membership for approval at the November 1 club meeting. Bud Glass seconded the motion. Motion carried.
- **Starting Station/Site Rules Update** – The Board reviewed all plans (LRPC and Board) for field improvements and has come up with a consolidated approach to both plans. This consolidated plan will be outlined and finalized by the Board at the November Board meeting, then shared with the membership.
- **FPV/Quad Racing Update** – A proposal was sent to the park several months ago for their review and feedback. Currently it is still under review, however Bud Glass will inquiry again as to the status.
- **Shea Home Funding** – per the Shea Homes agreement, the Jefco Aeromod'lers continue to look for additional sources of funding. It was suggested that the AMA Flying Site Assistance grant is a new option.
- **Name Badges** – Lora again reviewed the upcoming new name badge program. Soon members will be invoiced for their 2018 memberships. Online renewals will be an option. Goal is that the new membership program will launch officially on January 1. No AMA numbers will appear on the new badges. The current orange badges are no longer being issued and after January 1, will only be for vanity and will not be a valid method to authenticate membership.

- **Grass Runway Addition** – Per request by several club members, the Board discussed the options for grass runway addition.
- **Secretary's Report:** Kevin Furman made a motion to accept the October 4, 2017, Board meeting minutes published in the October newsletter. Bud Glass seconded the motion. Motion carried.
- **Treasurer's Report:** No financial reports were given as Treasurer Lora Knowlton reported that there has been only one transaction since the October 4 club meeting. That transaction was the damage deposit paid for the auction at the Arapahoe County Fairgrounds. President Thompson has started a list of capital improvement projects that will ultimately go before the membership for discussion and approval. Pete asked the Board to give him further items for the list.

**New Business:**

- **Auction 2018** - Auction Chair Bruce Riley previously reported at the October 4 club meeting that the Jefferson County Fairgrounds would be undergoing a complete roof renovation of all of their buildings, could not secure a date for the auction until all roof work was complete and therefore, another venue option was secured. The 2018 auction will be at the Arapahoe County Fairgrounds on January 26-27. Lora Knowlton and Bruce Riley did a site visit and while the location is well east of the metro area, it will afford generous space for the event and will be substantially cheaper than Jeffco Fairgrounds. Lora reported that Smiley Henderson will provide catering services at the auction.

**Committee Reports:**

- **Membership Report** – Lora had nothing new to report since the last club meeting.
- **Field Maintenance & Runways** – Bud Glass reminded the Board that the field will be closed on Wednesday, Oct 25 for final runway work. He also reported that shelving material has been purchased for the container. Soon items will be moved from the shed to the container.

## October 18, 2017 Jefco Aeromod'lers R/C Club Board Meeting Minutes (Con't)

### Committee Reports (Con't):

- **Safety** – Steve Rosselot reported to the Board that he has received reports that several weekday pilots are not flying within the club flying guidelines. Steve asked the Board to remind ALL pilots that safety at the field is of utmost importance and flying within the club guidelines is a must. Also an FPV pilot was reportedly flying at the field. When approached and told that FPV was not allowed, the FPV pilot said he was “gonna fly until someone said something”. A reminder to all pilots and all club members – the park will fine air space and FPV violators!!
- **Flight Instruction & Training** – Bud Glass currently has 6 active adult students. He also reported that he is preparing a policy and procedures document for training trainers. This will help to ensure that all students are receiving the same information from all instructors.

**Events** – Lora previously reviewed the upcoming Auction. The Rocky Mountain Hobby Expo is coming on

October 28 -29. Lora will contact those who volunteered to help with the Make 'n Take area. Bud Glass and Lora Knowlton are preparing a policy/procedures document for club sponsored events. This will help ensure that any person that is coordinating an event will be following the same checklist of to-do items.

**Programs** – For November, Morgan Young will be reviewing her experience at Camp AMA this summer. No other programs have been finalized. The Board discussed what other items could be presented as meeting programs. Some ideas were Shea Homes, health items such as skin care/skin cancer, Chatfield State Park happenings, aviation items in the Denver metro area. If members have items, please let the Board know.

**Adjourn:** Kevin Furman made a motion to adjourn the meeting. Bud Glass seconded the motion. Meeting adjourned at 8:55pm

Respectfully Submitted,

Lora Knowlton, Treasurer

### **A note about the upcoming Wings Over the Rockies Auction**

#### CLEARING THE AIR

The following information is provided in response to several inquiries from club members as to the circumstances regarding the upcoming RC auction that will be hosted at Wings Over the Rockies museum:

In August, your Board of Directors and Auction Chair were informally approached by club member Tom Neff about an opportunity for Wings Over the Rockies Museum to host a possible new event – with no venue rental fee. This conceptual event would be an RC auction, with table top exhibits from participating clubs and his club Airpark Elite would share 50% of the profits. At that time, Tom wanted an immediate answer to his offer. President Thompson asked Tom to provide written confirmation of the free venue offer from WOTR, which was never provided.

The Board discussed and agreed that any decision to split event proceeds from our club auction (the most important club fundraising event) should be very well thought out and not rushed into. The Board also didn't

want to risk what the club has worked so hard for and developed for so many years with conceptual ideas and nothing in writing. Further, the Board felt strongly that if all the information could be gathered and agreed upon to partner with Tom, the ultimate decision would be by the club with a full membership vote.

Therefore, given the short notice that was given to make a decision and the lack of information that was provided, the Board felt that it was in the best interest of the club to pass on the offer to partner with Tom and his Airpark Elite club.

Consequently, it appears that Tom/Airpark Elite has now partnered with the Denver R/C Eagles at Cherry Creek and they will be hosting a “Model Aviation Day and Remote Control Airplane Auction” in early November.

Since this event is an RC Auction and only months before our long-standing regional Jefco RC Auction, the Jefco Aeromod'lers RC Club will not be participating in this event.

**At the meeting**

Lora presents the 2017 - 2018 Club proposed budget.

Lora went into great detail. Please refer to the minutes.

Bruce Riley discusses the exciting news about the Auction.

Hank announces we'll be hosting the 2018 Champs Race.

Smiley Henderson and his son, Kameron.

Sid's scratch built F94C drew a lot of attention.

**Show and Tell - More Details in Business Meeting Minutes** Photos by Bud Glass

Peter Thompson with his E-Flite Ultra Stick.

Bill Neyman's RC Model World plans built Swizzle Stick.

Sid Gates behind his scratch built F94C.

Sid flew the actual FA-555.

Bud with his Radian outfitted for night flying.

The many lights are required for proper orientation

**Drawing Winners** Photos by Bud Glass

Hank Diepenbroek won both prizes, but only took one!

Larry Fagan won the Radian 2.4 second time 'round.

The tractor fits just fine inside the storage container.

Short ramps make ingress and egress easy.

Detail of the sprayer and blower attachments.

The blower is mounted at the perfect height.

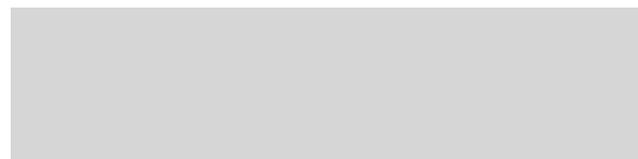

The spray head can be fixed as shown on the cover picture, or hand held to pinpoint the target.

The spray container holds plenty of liquid so Bud won't have to make multiple trips to refill.
